Art Unit: 1754

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 22-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wang et al. 6713519, taken with Oikawa et al. 4831011.

Wang teaches in col. 9 for example forming a Si containing substrate (which appears to have hydroxyl groups since it is formed from a wet gel), treating with acid (which also forms hydroxyl groups) and metal catalyst and then forming nanotubes. The surfactant is a 'reducing agent' in that it will reduce oxygen; the tem is relative and subjective. Wang does not teach the pH, however this appears possessed due to the recitation of HCl. Using a low pH (ie, a lot of acid) is an obvious expedient to form a large number of hydroxyl groups on which to anchor the metal catalyst; Oikawa col. 4.

Applicant's arguments with respect to claims above have been considered but are moot in view of the new ground(s) of rejection.

It is noted that 'using' in claim 25 should be changed to correspond to the language of claim 22.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication should be directed to examiner Hendrickson at telephone number (571) 272-1351.
